

## Pupil premium strategy statement

This statement details our school's use of pupil premium (and recovery premium for the 2021 to 2022 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

### School overview

Detail	Data
School name	Bradford AP Academy
Number of pupils in school	47
Proportion (%) of pupil premium eligible pupils	45%
Academic year/years that our current pupil premium strategy plan covers ( <b>3 year plans are recommended</b> )	2021-24
Date this statement was published	1 <sup>st</sup> November 2021
Date on which it will be reviewed	31 <sup>st</sup> October 2022
Statement authorised by	Richard Bottomley
Pupil premium lead	Richard Bottomley
Governor / Trustee lead	Dean Woodward

### Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£32,947.50
Recovery premium funding allocation this academic year	£12,000
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
<b>Total budget for this academic year</b> If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	£44,947.50

# Part A: Pupil premium strategy plan

## Statement of intent

You may want to include information on:

- *What are your ultimate objectives for your disadvantaged pupils?*
- *How does your current pupil premium strategy plan work towards achieving those objectives?*
- *What are the key principles of your strategy plan?*

To ensure all of our disadvantaged learners gain knowledge, skills and attitudes that support and promote progress that is at least in line with their peers and allows them to progress in education and society, improving their life chances. We want our disadvantaged pupils to:

- Engage with us and their learning quickly following their permanent exclusion
- Develop high levels of literacy, language and communication skills
- Develop confidence in numeracy
- Develop the ability to recall information and make links across different subjects within the curriculum
- Access a broad and balanced curriculum
- Develop resilience and independence
- Know how to keep themselves safe in all aspects of their lives
- Be able to self-regulate their behaviour to ensure they are not a threat to themselves or others

Bradford AP Academy will strive to ensure that their staff have all the relevant skills and resources to remove barriers to learning and progress that can impact on disadvantaged learners, allowing them to gain qualifications, confidence and skills to make a positive contribution to life in modern Britain.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	We treat all permanent exclusions as a traumatic event, and therefore each permanently excluded pupil is treated with trauma-informed practice to reduce anxiety and enable them to engage with their learning as quickly as possible.

2	A significant number of our PP students have attendance below the national average. In the last academic year the average attendance (where provided) of PP students on entering BAPA was significantly below the national average. This is often caused by ingrained low attendance from their previous school experiences, high levels of anxiety and / or disaffection.
3	Due to the distance that our students have to travel to come to BAPA, punctuality and attendance can be an issue for students. This is more likely to impact on disadvantaged students as they are less likely to have parents who are able to transport them, and are less likely to be able to travel independently via public transport, prior to coming to BAPA.
4	A significant number of our PP students are below the secondary ready level when entering Year 7 (last year this was 39% of PP students, compared to 44% of all our students).
5	Some of our parents have lost faith in the education system following the permanent exclusion of their child.
6	Our students are prone to risk-taking behaviour and this in many instances has led to their permanent exclusion.
7	Disadvantaged students often lack resilience and independence in their academic studies compared to their peers. This may be because their families lack confidence in the education system and there are less role models available to them than their peers.
8	Disadvantaged students who have been permanently excluded can lack ambition and clear goals to work towards in terms of their academic performance.
9	Students who have been permanently excluded since September 2021 are displaying significant gaps in their learning from the lockdown period and often are displaying more extreme behaviours. This appears to be caused by a lack of engagement with their remote learning and a lack of routine/
10	Permanently excluded young people are less likely to be in a positive destination 6 months after leaving Y11 than their peers.

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
PP students have attendance that is in line or better than their peers.	<ul style="list-style-type: none"> <li>• Barriers to attendance are identified early.</li> <li>• Support is put in place to overcome the barriers.</li> <li>• If necessary work is done with parents to support them in ensuring their child attends school every day.</li> <li>• Referrals are put into the relevant agencies if more support is required.</li> <li>• Students make at least expected progress</li> </ul>

	in English and Maths.
The percentage of students making at least expected progress in English is within 5%, equal or above non PP students	<ul style="list-style-type: none"> <li>• PP students arrive on time to complete their daily spellings.</li> <li>• PP students read every day, improving fluency and accuracy and develop a love of reading, starting to read for pleasure outside of BAPA.</li> <li>• PP students develop their literacy and this impacts on the outcomes in other subjects through disciplinary literacy.</li> <li>• PP students close gaps in their learning and make above expected progress in English.</li> <li>• PP students are more likely to be able to access the national curriculum at an age appropriate level and successfully transition onto their next placement.</li> </ul>
The percentage of students making at least expected progress in Maths is within 5%, equal or above non PP students	<ul style="list-style-type: none"> <li>• PP students arrive on time every day to access their Maths lessons.</li> <li>• PP students use the self-assessments and skills descriptors to identify areas for improvement and close gaps to access the national curriculum at an age appropriate level.</li> <li>• PP students use the end of unit tests to show their independent learning and ability to recall their learning in Maths.</li> </ul>
The percentage of PP students who have left Y11 that are still in positive destinations 6 months after leaving school is in line with their peers nationally.	<ul style="list-style-type: none"> <li>• All Y11 PP students receive independent, one to one careers advice.</li> <li>• All Y11 PP students are supported to put in applications for Post 16 and have at least one option as they enter the last term of Y11.</li> <li>• All Y11 PP parents / carers are aware of the options available to them and support their children in their choices.</li> <li>• All Y11 PP pupils receive support at the start of their Y12 course in order to be successful.</li> </ul>
Attainment of PP students is in line with non PP students using FFT50 VA in English and Maths.	<ul style="list-style-type: none"> <li>• Attendance of all Y11 PP students allows them to attain in their English and Maths qualifications.</li> <li>• Behaviour for learning is positive for all Y11 students, allowing them to focus on their learning.</li> <li>• High quality teaching supports the students in recalling their learning and succeeding in their exams.</li> </ul>
PP students are displaying the same levels of resilience and independence as their peers.	<ul style="list-style-type: none"> <li>• All PP students engage in their Friday non-core resilience sessions.</li> <li>• All PP students are taking advantage of</li> </ul>

	<p>opportunities at BAPA to show their resilience and can articulate these to their teacher and their peers.</p> <ul style="list-style-type: none"><li>• Increased resilience and independence leads to PP students reducing their behaviour incidents and being more successful in their learning and social behaviours.</li></ul>
--	---

## Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

### Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £21,000    20 hours of HLBLP time = £2000, NPQ qualifications are free due to the high percentage of PP students in our cohort however there is significant staff investment in this, home engagement staff = £15,000, HLBLP training = £4,000

Activity	Evidence that supports this approach	Challenge number(s) addressed
Six teachers accessing NPQ qualifications to improve leadership of teaching and learning and the development of teachers. Time that teachers need off timetable will be offset by having 20 extra hours of HLBLP time to ensure continuity for the students.	Commissioned by Wellcome, a study by Ambition Institute and the Education Policy Institute found that 35 hours of high-quality continuing professional development a year could improve pupil outcomes almost as effectively as having a teacher with 10 years' experience in the classroom. The study also found that quality CPD improves teacher retention.	1, 2, 4, 7, 8, 9, 10
BLPs accessing HLBLP qualifications to improve the quality of their provision to students.	See above	1, 2, 4, 7, 8, 9, 10
Access to the CPD offered by PiXL in terms of core subjects and leadership.	Membership of thousands of schools across the UK. Able to access quality assured resources to support the delivery of subjects outside of our curriculum offer. The resources provided by PiXL last year allowed one of our students to access 9 GCSEs, achieving 8 grades at 5 or above. Five of these GCSEs were not part of the BAPA curriculum.	4, 9, 10
Employment of home engagement teachers to access the hardest to reach students and support them in accessing the	Individualised instruction on the Sutton toolkit is scored at +4. The home engagement package is likely to have higher impact, as without this these students would be school refusers. This provision is for those	1, 2, 4, 7, 8, 9, 10

curriculum.	students who are unable to access our on site education, often due to issues regarding anxiety.	
-------------	---	--

## Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £4,635 (Extra literacy resources = £500, PiXL subscription = £2,875, other subscriptions = £1,260)

Activity	Evidence that supports this approach	Challenge number(s) addressed																																				
Support to improve literacy. Training focus for all staff on disciplinary literacy has been secured from the National Literacy Trust. Schemes of work have been developed to scaffold learning for EAL children and extreme literacy issues.	<p>WRAT testing completed on induction, 7 weeks and 6 months is used to measure the effectiveness of this approach. In the last academic year the following progress was made in literacy over a 6 month period:</p> <table border="1"> <thead> <tr> <th rowspan="2"></th> <th colspan="2">PP</th> <th colspan="2">Whole Academy</th> </tr> <tr> <th>6 months +</th> <th>12 months +</th> <th>6 months +</th> <th>12 months +</th> </tr> </thead> <tbody> <tr> <td>Reading age</td> <td>62%</td> <td>62%</td> <td>58%</td> <td>58%</td> </tr> <tr> <td>Spelling age</td> <td>52%</td> <td>43%</td> <td>39%</td> <td>32%</td> </tr> <tr> <td>Comp age</td> <td>52%</td> <td>52%</td> <td>55%</td> <td>52%</td> </tr> </tbody> </table> <p>Reading comprehension intervention scores +6 on the Sutton Trust toolkit showing this has a high impact.</p>		PP		Whole Academy		6 months +	12 months +	6 months +	12 months +	Reading age	62%	62%	58%	58%	Spelling age	52%	43%	39%	32%	Comp age	52%	52%	55%	52%	1, 2, 8, 9, 10												
	PP		Whole Academy

Spelling age	52%	43%	39%	32%																																		
Comp age	52%	52%	55%	52%																																		
Subscription to a variety of organisations to supplement the curriculum allowing improved teaching, intervention and engagement.	<p>Progress and attainment of students who have accessed these resources in the last academic year is shown below:</p> <p><b>English</b></p> <table border="1"> <thead> <tr> <th colspan="3">PP</th> <th colspan="3">Whole academy</th> </tr> <tr> <th>Below expected progress</th> <th>As expected progress</th> <th>Above expected progress</th> <th>Below expected progress</th> <th>As expected progress</th> <th>Above expected progress</th> </tr> </thead> <tbody> <tr> <td>16%</td> <td>52%</td> <td>32%</td> <td>13%</td> <td>49%</td> <td>38%</td> </tr> </tbody> </table> <p><b>Maths</b></p> <table border="1"> <thead> <tr> <th colspan="3">PP</th> <th colspan="3">Whole academy</th> </tr> <tr> <th>Below expected progress</th> <th>As expected progress</th> <th>Above expected progress</th> <th>Below expected progress</th> <th>As expected progress</th> <th>Above expected progress</th> </tr> </thead> <tbody> <tr> <td>5%</td> <td>48%</td> <td>48%</td> <td>18%</td> <td>36%</td> <td>48%</td> </tr> </tbody> </table>	PP			Whole academy			Below expected progress	As expected progress	Above expected progress	Below expected progress	As expected progress	Above expected progress	16%	52%	32%	13%	49%	38%	PP			Whole academy			Below expected progress	As expected progress	Above expected progress	Below expected progress	As expected progress	Above expected progress	5%	48%	48%	18%	36%	48%	1, 2, 8, 9, 10
PP			Whole academy																																			
Below expected progress	As expected progress	Above expected progress	Below expected progress	As expected progress	Above expected progress																																	
16%	52%	32%	13%	49%	38%																																	
PP			Whole academy																																			
Below expected progress	As expected progress	Above expected progress	Below expected progress	As expected progress	Above expected progress																																	
5%	48%	48%	18%	36%	48%																																	

Eg My Maths, Hegarty Maths		
Subscription to PiXL	<p>Recently permanently excluded Y11 students able to access a wider range of GCSE qualifications that have been started in their previous school.</p> <p>One student last year was able to achieve 9 GCSEs or equivalent, 8 of which were grade 5 or above. This student made up 4% of our Y11 cohort. Pre Covid only 1% of students nationally, who completed Y11 in alternative provision achieved 5 good GCSEs.</p>	1, 2, 8, 9, 10
Improved access to vocational courses.	<p>Students in alternative provision made excellent progress overall.</p> <p>53% of students overall achieved grade 4 or above in English Language, 62% of students overall achieved grade 4 or above in Maths and 89% of Keighley College students achieved grade 4 or above in Maths.</p>	1, 2, 8, 9, 10
Improved access to a range of arts that promotes cultural capital.	<p>Cultural capital is in the Ofsted framework as being a significant contributor to having a fit for purpose curriculum. Access to the Arts is given a rating of +3 in the Sutton Trust toolkit. Often our PP students do not have access to the same levels of family support as their peers. They also have lower expectations due to family's losing confidence in the education process and there being less role models for the students to aspire to. Allowing them access to cultural capital aims to increase ambition and engagement in education.</p>	1, 2, 8, 9
I pads to improve IT literacy and support intervention work if students are below expected progress or unable to access the curriculum.	<p>The Covid lockdown highlighted the impact of low levels of IT literacy in some of our students and the negative impact this has on their life chances. Improving digital literacy will reduce their chances of being NEET when they leave key stage 4 and increase their ability to keep themselves safe on line. Often our PP families do not have the digital resources at home and therefore students are behind their peers in terms of confidence to engage, safely online thus limiting their life chances.</p>	1, 2, 8, 9, 10

**Wider strategies (for example, related to attendance, behaviour, wellbeing)**

Budgeted cost: £25,310. *Inclusion leaders = £21,000 (33% of inclusion leader cost over an academic year, Breakfast club = £1500, Cultural capital resources and trips = £500 (proportioned to PP students), School Comms = £350, I pads = £1,960*

Activity	Evidence that supports this approach	Challenge number(s) addressed
<p>Employment of inclusion leaders to improve support for students and families, improve communication and engagement. Increased focus will be given to PP students and those who have gaps in their learning due to Covid.</p>	<p>Attendance increased by 7% in the last academic year. Progress data found above. Of the Year 11 cohort 30% of our students achieved grade 4 in English and Maths, compared to 4% of permanently excluded students nationally. All students (bar 2 who joined from the virtual school on 27 May) achieved at least 1 qualification.</p>	<p>1, 2, 3, 5, 6, 7, 10</p>
<p>Breakfast club providing PP and disadvantaged students free access to food and drink prior to starting learning.</p>	<p>Improved punctuality and engagement in learning. Attendance was up 7% in the last academic year, despite the situation regarding Covid. Progress data is found above. The Sutton Trust toolkit gives a score of +3 for extending the school day.</p>	<p>1, 2, 3, 5, 6, 7</p>
<p>Using School comms to secure improved communication and engagement with disadvantaged and hard to reach families.</p>	<p>Parental engagement scores +4 in the Sutton Trust toolkit. Given the transient nature of our students it is important we build trust quickly with our parents and this is more significant than for a mainstream school that parents are more likely to have chosen.</p>	<p>5</p>

**Total budgeted cost: £46,945**

## Part B: Review of outcomes in the previous academic year

### Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2020 to 2021 academic year.

*Due to COVID-19, performance measures have not been published for 2020 to 2021, and 2020 to 2021 results will not be used to hold schools to account. Given this, please point to any other pupil evaluations undertaken during the 2020 to 2021 academic year, for example, standardised teacher administered tests or diagnostic assessments such as rubrics or scales.*

*If last year marked the end of a previous pupil premium strategy plan, what is your assessment of how successfully the intended outcomes of that plan were met?*

The PP students in Y11 performed in line with the non PP students in the teacher assessed grades:

#### Year 11

	PP	Whole academy
<b>Grade 4 or above in English</b>	45%	53%
<b>Grade 4 or above in Maths</b>	55%	62%
<b>Grade 4 or above in En &amp; Ma</b>	45%	30%

In the half termly assessments their progress was also in line with their non PP peers:

#### English

PP			Whole academy		
Below expected progress	As expected progress	Above expected progress	Below expected progress	As expected progress	Above expected progress
16%	52%	32%	13%	49%	38%

## Maths

PP			Whole academy		
Below expected progress	As expected progress	Above expected progress	Below expected progress	As expected progress	Above expected progress
5%	48%	48%	18%	36%	48%

Using WRAT testing to assess their literacy skills the data for progress after 6 months was also approximately in line with the non PP students:

	PP		Whole Academy	
	6 months +	12 months +	6 months +	12 months +
Reading	62%	62%	58%	58%
Spelling	52%	43%	39%	32%
Comp.	52%	52%	55%	52%

Attendance of PP students was also only marginally below that of their non PP peers:

	PP		Whole Academy	
	6 months +	12 months +	6 months +	12 months +
Reading	62%	62%	58%	58%
Spelling	52%	43%	39%	32%
Comp.	52%	52%	55%	52%

## Externally provided programmes

*Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England*

Programme	Provider
PiXL – resources and CPD provided for schools. This was used to increase the range of subjects that students can access and increase the resources available to teachers to support differentiation and provide stretch and challenge.	PiXL

## Service pupil premium funding (optional)

*For schools that receive this funding, you may wish to provide the following information:*

Measure	Details
How did you spend your service pupil premium allocation last academic year?	
What was the impact of that spending on service pupil premium eligible pupils?	

## Further information (optional)

Due to the size of our school and the role we have within the local authority all of our students are targeted to make rapid and sustained progress for the period of time that they are with us. Our curriculum planning and lessons are highly differentiated and any student making below expected progress in a half term is immediately put on a bespoke support programme.

## The following two years

The above information is part of a three year plan. Please see below for how this will be built upon in the following two years:

### Priorities for the next three years

- Attendance – for PP students to have attendance above the national average for students in alternative provision.
- Literacy – for over 70% of PP students to make at least 12 months progress in their first 6 months in at least 2 of the 3 aspects.
- Transition – for our PP students to have the same transition success rate to main-stream / specialist provision as highlighted by FFT for all permanently excluded students and where they finish key stage 4.

### Strategy

- **Quality first teaching** – ensuring an ongoing CPD progress for teachers and BLPS to keep evolving the provision for all students, making sure it is first class and allows progress within the classroom at BAPA. The best outcome for any student at BAPA is to return to a main-stream school and access a wide range of qualifications at the right level for them. Having high quality delivery is the best strategy for supporting this outcome, where it is appropriate.
- **High quality intervention** in the right area and at the right time. Where students are not making progress towards returning to mainstream school, money will be spent on ensuring that the right resources are available for swift intervention that can support the student in making progress with a view to returning to mainstream education or the intervention supports the student as a piece of evidence towards assessment for an Educational Health Care Plan.
- **Reaching the most hard to reach students** and identifying a plan for them to access a broad and balanced curriculum despite significant barriers. This will include the option for temporary home engagement provision and a plan to increase engagement towards a full, broad and balanced curriculum over a period of time that is bespoke for each student.

## **Year 1 – See above for the details**

**Quality first teaching:** A number of teachers completing a range of NPQs to improve classroom practise across both sites. This involves a focus on leading teaching and learning and teacher development. BLPS will be encouraged to access the HLBLP course to improve their skills. There will be an extra 10 hours of HLBLP time for both sites per week to increase flexibility and capacity and support the CPD. The focus for the twilight sessions for the year is Disciplinary Literacy to support the first two priorities. There is also a focus for a member of SLT to be trained in cognitive load theory and cascade this to the rest of the staff. A staff well-being group has also been set up to ensure staff voice is captured and areas that may impact negatively on teaching are eradicated quickly.

**High quality intervention:** Disciplinary literacy CPD and new resources to impact on spelling, reading and comprehension to enable swift and impactful intervention across all areas of the curriculum. BAPA are also working with PiXL to develop an induction test in Maths and English to identify gaps in knowledge and the current skills that the students have on entering BAPA.

**Reaching the most hard to reach students:** Embedding and developing the work of the home engagement team. This will include the development of the bungalow to provide a base for the team and another tier of transition to moving to the on-site provision if this is appropriate. Investment in time for the HE team to liaise with the key leads in English and Maths to ensure that the resources and assessment are in line with the on-site provision to improve transition.

## **Year 2**

The specifics will be tailored to meet the needs of the cohort, by looking at the characteristics of the students at BAPA, and the outcomes following the actions outlined above.

**Quality first teaching:** Teachers cascade their learning from the NPQs, leading teaching and learning to improve implementation across both sites and embed the disciplinary literacy training. Increased role for the English and Maths leads across both sites, AP and HE cohorts to improve the implementation of staff in all areas. Training of key staff to ensure that new aspects of the curriculum have well trained staff delivering on them.

**High quality intervention:** Researching, procuring if appropriate and training in the use of ICT to improve those who's literacy levels are not accelerating through current resources. Building on the disciplinary literacy in the last academic year.

**Reaching the most hard to reach students:** Ensuring the bungalow resource is fit for purpose and developing this through staff and student voice from its original state. This

will provide a base for the home engagement students, who are the least likely to make progress due to their anxieties and emotional health. This will also allow a tiered approach to reintegration, increasing the chances of the students reintegrating into full-time, on-site education which will increase their life chances through access to a broad and balanced curriculum. Research done with the staff team, English and Maths leads to identify further training needs and resources to support the transition from HE to on site education.

**Year 3 – spending to be dictated by research and the emerging needs of the students.**

**Quality first teaching:** Deep dives, outcomes and curriculum reviews inform training needs.

**High quality intervention:** Teachers research the most impactful intervention resources across both core subjects from a range of sources including PiXL and those used in special schools. Resources sourced to match needs .

**Reaching the most hard to reach students:** Staff research via Tracks and other similar providers as to what is the most impactful in terms of reducing anxiety and increasing hours in education.
